

Dear All,

We live in a world where work takes up 80% of our 'awake time' leaving us not much time to relax, look around, take in our surroundings and enjoy the beautiful South African weather and outdoor life.

This is the first in a series of newsletters I intend to distribute once every two months with tips and ideas on how you can spend your precious free time having fun and making the best out of South Africa and specifically Gauteng.

Once I started planning and researching for this issue I discovered that although I have lived in Gauteng for 13 years now there are many places, activities and events I was not aware of and therefore never experienced.

So hopefully this will be a useful guide not only for the new expatriates but for established "Gautengers" who, like myself, have not

seen and experienced everything there is to see of South Africa.

Tell us about your experiences in South Africa, positive or negative, we would love to post them in the next edition and share with everyone interested.

Services, products, places of interest, restaurants, companies, and anything else that impressed or disappointed you; tell us your story and we will spread the word!

Yay or Nay?

Tell us about your experiences in South Africa, positive or negative, we would love to post them in the next edition and share with everyone interested. Services, products, places of interest, restaurants, companies, and anything else that impressed or disappointed you; tell us your story and we will spread the word!

MAGALIESBERG CANOPY TOUR

If you're aged between seven and seventy and looking for something different, this is just the experience you've been looking for. Its fun, it's safe and will be the talking point at your breakfast table for weeks afterwards.

The Magaliesberg Canopy Tour is ideal for the individual thrill seeker, family getaways, group or student excursions and Corporate Team Builds.

What is the Magaliesberg Canopy Tour?

It is a unique and unforgettable 2 ½ hour experience through the Ysterhout Kloof. Slide above the Kloof from eleven platforms built high against the cliffs and rock faces of the Kloof and joined by ten slides up to 140m long and in some places up to 30m above the stream below.

Is it safe?

The system has been designed and constructed by a civil engineer. During the tour two trained guides assure the safety of each group while describing interesting facts about the history of the range, surrounding eco-logy, bird and animal life.

What does it cost?

R395 p.p. Hotel residents will be offered a discount of R100.

Who should we contact?

Tel: +27 (0) 14 535 0150
